

Storm Drains Lead to Local Waterways

Join the Ecology Action Center and ISU Center for Civic Engagement on September 20 from 1–3pm in stenciling "Drains to Stream–Keep it Clean" at neighborhood storm drains and distributing informational door hangers, to let residents know how important it is to keep storm drains clear and keep pollutants out of our water. Workday locations to be communicated prior to event.

Individuals must sign up at the link provided by the ISU Center of Civic Engagement
