

Civic Engagement and Social Change Minor

Mission: Graduate passionate and ethical people who lead civic engagement endeavors with local, national, or global communities.

Vision: To create a more just and equitable campus, community, and world through a signature civic engagement minor.

Program Level Goals:

Graduates of the Civic Engagement and Social Change program will be able to:

- Practice ethical civic engagement as life-long learners and leaders in their careers and communities.
- Use critical analysis to solve social problems in collaboration with individuals and communities from diverse perspectives.

Framework domains: Knowledge, Skills, Attitude, Application

Learning Outcomes by Domain

Knowledge:

1. Identify types of civic engagement within and/or across disciplines.
2. Discern credible sources of civic engagement information.
3. Describe the process of building and maintaining a democratic society.

Skills:

4. Critically analyze and reflect upon a civic engagement experience.
5. Collaborate with people from diverse perspectives and social identities to develop just and equitable solutions to social and community issues.

Attitude:

6. Approach engagement with humility, an appreciation for individual and community strengths, and a commitment to responsible action.
7. Articulate a critical self-awareness of their values and assumptions about power and privilege.

Application:

8. Organize, lead, and reflect upon ethical and effective civic engagement efforts.
9. Advance an argument regarding a public issue that considers ethical values from multiple individuals and communities.
10. Evaluate the extent to which mutual benefit and reciprocity are present in a given community partnership.
